Internship certificate

Ms. Susi Musterfrau, born on March 1, 2024, completed an internship in our company from September 1, 2023 to November 30, 2023. During the internship, Ms. Musterfrau worked in our specialist design department at Beispiel GmbH in Erlangen.

The specialist department for rolling bearing design develops gear concepts with a focus on optimizing the overall drive.

In this context, Ms. Musterfrau had the task of carrying out catalog research for various projects, as well as performing the development and design tasks involved.

Ms. Musterfrau carried out the following tasks as part of her internship:

- Catalog research for the electric steamer (ED) 2.0 project in the company's own rolling bearing catalog and the Internet
- Simulation and calculation of bearing arrangements for the ED 2.0 project
- Design and creation of drawings for production in the company's own workshop
- Translating the most important technical data of the selected rolling bearing into English, French and Spanish for colleagues in the field

Ms. Musterfrau had two days of absence.

We would like to thank Ms. Musterfrau for her excellent cooperation and wish her all the best and continued success in her future career.
